

BIG LEAGUE RACES SHOULD BE RATHER THRILLING THIS SEASON; NO ONE KNOWS JUST WHAT'LL HAPPEN AND FANS ARE AGOG

The many changes in the line-ups of major league teams this season makes pennant prognosticating especially difficult. The fans have managed to change the usual aspect of baseball things quite a bit.

ENGLISH TEAM HAS FIGHTING CHANCE

Captain Leslie Cheape.

That the English polo team, led by Captain Leslie Cheape, has a fighting chance to win the international cup from the Americans this year is the opinion of polo experts. The English ponies, numbering thirty-five, are now on their way to America. The team will reach this country the last of the month.

HOW SHALL YOU VOTE?

On The 25th of May

Who shall administer the affairs of your City during the next two years to come? The interests of the workers, the Corporations on the people? This question you should decide before you enter the polls next Monday.

Will you vote for a party with principles, or shall you again vote for the best man?

Will you vote for liberty, freedom and the emancipation of the workers, or shall you again vote to further enslave your self, and unborn generations?

Will you vote for more bread, clothing, shelter and sunshine in life, or shall you again vote to increase the poorhouses, insane asylums, penitentiaries, life of shame, the bread-lines and the army of unemployed?

In this like all other campaigns, it is WAR between the exploiting and exploited. The Socialist Party (your party) stands for the emancipation of the wealth producers of the world. The Republicans, Democrats and Progressive parties stand for Capitalism exploitation and slavery. You are the jurors, and what shall your verdict be?

Local Conditions

No city in the United States of equal size and wealth is so lacking in municipal enterprises and improvements.

There is not within this city except the Central School ground, a public park or playground.

The Conditions of the streets and sidewalks outside the business center, would be a disgrace to a city one-half the size of Bisbee.

Why does the city of Bisbee purchase Light, Power, Ice and Water from private corporations at a trebled price when this city could erect and operate its own light, power, ice and water plants and furnish to its inhabitants at cost these necessities of life?

And why do not private corporations own, control and operate the Fire Department, the streets, sewerage system, the city subways, and our schools? (You answer) If the City can own, control and operate these utilities, Why not all others?

Do you know that those who have administered your affairs during the past two years, squandered \$4,116.45 of your funds in the selling of Naco road, and an other large amount in having the siding removed?

The present administration have also assumed more power than the Czar of Russia, they have violated the highest law in the land, the state and national constitution that grants Free-press, Free-speech and Free-assembly, and yet the very element that have mismanaged the affairs of this city for years past and who are responsible for these conditions are now engaged in a wild scramble for material gain, and clamoring to be kept in political power as defenders of the best interest of Bisbee.

Vote the Socialist ticket straight and have the affairs of your City administered in your interest.
